Test in Naturwissenschaften, Year 6

"Amanda and Asim measured the mass of a slice of fresh bread. They left it for five days in the classroom. The slice of bread went hard. They measured the mass again."

Question 1:

What happened to the mass of bread?

Schuelerin kreuzt Antwort an: *The mass went down.*

Soweit, so richtig...

Question 2:

Explain your answer to Question 1.

Schuelerin: *Because all the microorganisms die and fall out of the bread as the bread goes hard.*
