

Wenn die Erde eine Stunde alt wäre --- Suche dringend...

Beitrag von „Paulchen“ vom 9. Dezember 2013 22:55

Hat sich erledigt, habe es tatsächlich noch gefunden:

Earth's Clock
(Pat Moon)

Imagine that the earth was shaped twenty-four hours ago
Then at 6 a.m. rains fell from the sky
To form the seas below
At 8 a.m. in these soupy seas
The first signs of life appeared
The dinosaurs called twenty minutes ago
But at twenty to twelve disappeared
Man arrived just one minute ago
Then at thirty seconds to midnight
Raised himself from his stooping stance
And started walking upright
In the thirty seconds man's walked the earth
See what he's managed to [do](#).
Earth's clock continues ticking;
The rest is up to you.
