Fakt bleibt trotzdem, dass auch Pfizer zur Operation "Warpspeed" gehörte und deine Aussage einfach falsch war.

Nein, immer noch nicht, auch wenn du es noch drei mal wiederholst:

Vice President Mike Pence was among Trump administration officials saying support from the government's Operation Warp Speed program helped accelerate the development of the vaccine, which was [found](#) to be more than 90% effective in preventing symptomatic COVID-19 infections in an interim analysis.

The truth is that Pfizer didn't receive any funding from Operation Warp Speed for the development, clinical trial and manufacturing of the vaccine. Rather, its partner, BioNTech SE, has received money -- from the German government.
