## Hi Moebius,

Sorry for inconvenience, I didn't use original picture due to privacy. If you want me use original picture then I will definitely use it. I have no issue. If talk about AI training bots, the post was written by me not any bot. And this is not a random post buddy. Even I am writing this answer to your question not bot. As a professional, I respect community guidelines and I also mentioned the same while I was introducing myself.

Thanks for your understanding.
